Student Employment Opportunities at the USGS

The U. S. Geological Survey, Minnesota Water Science Center, has openings for qualified student employees in the physical, earth and biological sciences. This is an excellent opportunity to gain experience and to work with USGS scientists. Candidates must be enrolled in a degree-seeking curriculum. Ideal candidates should be available to work part time during the school year and full time in the summer. If interested, please send a resume to Donald Hansen.

Employment by the United States Government is limited to citizens of the United States.
